

Virginia Opioid Abatement Authority Application for Awards for Cooperative Projects Involving Cities and Counties

1. Contact Information

This application is for cooperative projects consisting of a cooperative partnership between at least two cities and/or counties within the same Department of Behavioral Health and Developmental Services (DBHDS) region.

Complete this table for all cities and/or counties involved in the cooperative partnership.

Name of City/County	Contact Person	Mailing Address	Phone #	Email
Albemarle County	Doug Walker	401 McIntire Road, Charlottesville VA 22902	434-243-58 41	dwalker3@albemarle.org
Nelson County	Candice McGarry	P.O. Box 336 Lovingston, VA 22949	434-263-7000	CMcgarry@nelsoncounty.org
Louisa County	Christian Goodwin	1 Woolfolk Avenue, Suite 301, Louisa VA 23093	540-967-3400	cgoodwin@louisa.org
Greene County	Brenda Garton	40 Celt Road, Stanardsville, VA 22973	434-985-5201	bgarton@gcva.us
City of Charlottesville	Michael C. Rogers	PO Box 911, Charlottesville, VA 22902	434-970-3103	rogersmc@charlottesville.gov
Fluvanna County	Eric M. Dahl	132 Main St, Palmyra, VA 22963	434-591-1910 x1058	edahl@fluvannacounty.org

2. Fiscal Agent

- a. One of the participating cities or counties must serve as the fiscal agent for the cooperative project. The fiscal agent will be responsible to ensuring compliance with both financial and programmatic reporting requirements on behalf of the cooperative partnership.
- b. City/County Serving as Fiscal Agent County of Albemarle city county
- c. Physical address: 401 McIntire Road Charlottesville, VA 22902
- d. Mailing address: _____
(if different than physical address)
- e. Contact Person for this application
- i. Name: Kaki Dimock
- ii. Job Title: Director of Social Services
- iii. Office Phone: 434-972-4011 ext 3177 Cell Phone: _____
- iv. Email: kdimock@albemarle.org

3. Agreements

- a. Attach a copy of the cooperative partnership agreement between the participating cities and/or counties for the project. The agreement should also designate the city or county selected as fiscal agent for the cooperative project. A SAMPLE agreement is available here.
- i. If any participating city and/or county elects to allocate a portion of its Individual Distribution from the OAA to this regional project, the Cooperative Partnership Agreement should clearly document the commitment and amount.

4. Signature

Signature section must be completed by a person designated with signatory authority in the MOU/MOA noted in Part 3.a of this application.

"I swear or affirm that all information contained in and attached to this application is true to the best of my knowledge."

Signature 

Print Name Doug Walker

Title Deputy County Executive

Date 5-5-2023

5. Project Proposal

Complete the information below for the project the cooperative partnership is requesting to be funded.

a. Is this project:

- A new effort for the participating cities/counties.
- A proposed supplement or enhancement to a project or effort that is already in place.
- How long has the project existed? _____
- A combination of enhancing an existing project/effort with new components.
- How long has the project existed? Blue Ridge Center has existed since 1979; the community drop in component is new.

b. Provide a brief narrative description of the proposed project including the requested term (1-5 years).

The Community Outreach proposal includes a plan for an initial year of funding, with an additional four years to expand capacity and increase the number of individuals served. The proposal offers a community-based response to individuals, neighborhoods or communities in distress to provide information, education, support and connection to services and who have, or are at risk of developing, opioid use disorder and any co-occurring substance use disorder or mental health conditions. The Community Outreach program will receive calls from individuals in the community, partner agencies, or local governments requesting support. The community outreach response will be timely in that the team will be ready to assist within 24 hours in the setting that is most comfortable to the people served. Because the Community Outreach program will be based at Region Ten's Blue Ridge Center (BRC), there is a community drop in component that allows for immediate connection and response to needed information and support when someone walks through the door, regardless of existing connection to Region Ten services. With additional funding and capacity over the next five years, Region Ten expects to be able to respond to 75 percent of the calls received for crisis support through the establishment of a community outreach team. Since BRC was founded in 1979 its services have changed to include more evidence-based programming, as well as trauma-informed assessment and treatment planning. BRC was closed during the pandemic and recently reopened with evidence-based programming that includes clinical outpatient services such as individual and group therapy, Cognitive Behavioral Therapy (CBT), Medication Management, Auricular Acupuncture, Motivational Interviewing, Substance Use Disorder (SUD) and Opioid Use Disorder (OUD) prevention, and WRAP planning. People served at BRC are adults with Serious Mental Illness (SMI), and Co-occurring Disorders (COD). Community Outreach is a new program within an established framework that the community is aware of and connected to. The BRC offers a solid "bricks and mortar" place for people to come for immediate harm reduction prevention outreach efforts such as Naloxone and fentanyl test kits and clean syringe exchanges. As capacity increases in additional funding years, so will number of adults getting connected to MOUD treatment, counseling and mental health services, peer support, housing, education, childcare, employment and job training.

Application for Awards for Cooperative Projects Involving Cities and Counties

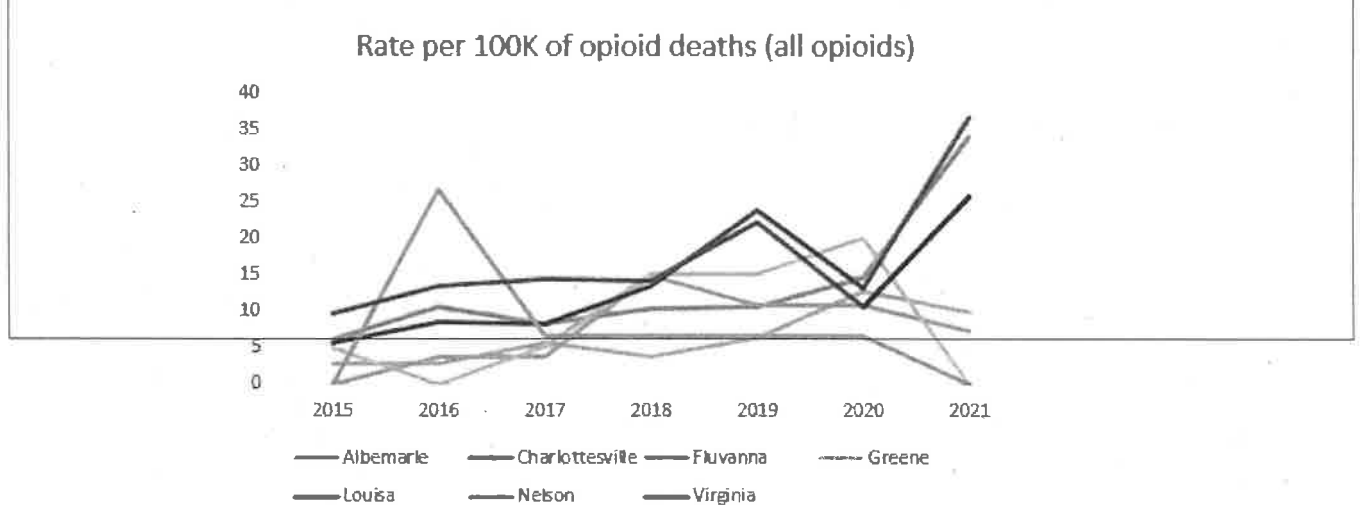

c. Describe the objectives of this project

The goal of the Community Outreach program is to provide community outreach and support by responding to people in the community at the right time, in the right setting, with behavioral health expertise to support, and engage and link to appropriate longer-term services that prevent and treat OUD and other related substance use concerns. Initially, the team will work as part of the day program at Region Ten's Blue Ridge Center. With funding and staff, there will be an identified outreach team for each locality served by Region Ten.

Objectives include 1) responding to a local incident, 2) providing episodic support for disconnected individuals who are not functioning well in the community, 3) outreaching to community members who would benefit from a high touch team to engage in services, and 4) harm reduction prevention efforts including Rapid REVIVE training, as well as Narcan and fentanyl test trip distribution. Over time this will lead to an increased connection to ongoing services that support the community and prevent overdose deaths and other opioid-related harms.

d. How was the need determined and how does that need relate to abatement?

The proposed Community Outreach program utilizes a data-driven approach to strengthen harm reduction outreach and promotion in Region Ten's catchment area. Data from the Virginia Department of Health (VDH) shows geographic areas with a higher overdose concentration, with a focused outreach to areas with highest concentration of Opioid overdoses which are Charlottesville, Albemarle, Louisa and Nelson counties. The Community Outreach program will include prevention efforts to increase community education about risks of fentanyl use, harm reduction practices, and awareness of local resources for prevention and treatment of opioid concerns. Funding would be utilized to support funding for peer specialists with lived OUD/SUD experience to provide outreach to people using substances and their friends and family members, coordination with community organizations who provide harm reduction services, and marketing about harm reduction.

**Application for Awards for Cooperative
Projects Involving Cities and Counties**

- e. Who are the targeted beneficiaries, and how many persons are expected to participate per year?

The population of focus for this grant proposal are adults who participate in programming at Region Ten's Blue Ridge Center (BRC), which is located in the city of Charlottesville and serves consumers from Region Ten's catchment area. BRC currently has capacity for 60 individuals per day for both Region Ten consumers and drop in community members, so it is reasonable to expect that several thousand people per year would participate. Beneficiaries for the community drop in component would be any adult in Region Ten's catchment area that is in need of connection to services or supports. Individuals will be served across Region Ten's catchment area of Charlottesville City, Albemarle, Fluvanna, Greene, Louisa and Nelson Counties, with a focused outreach to areas with highest concentration of opioid overdoses which are Charlottesville, Albemarle, Louisa and Nelson counties.

- f. Briefly describe (name or organization, description of role, budget, etc.) the organization(s), including any sub-recipients or contractors (if known) that will be involved in this project. Attach any contracts and/or memoranda of understanding/agreement. If not fully executed, a draft or a narrative describing the scope of services may suffice.

Region Ten is the largest behavioral health provider in the region and serves more than 9,000 individuals across its localities each year. Of the adults served in FY 22, an average of 58 percent, or 5,220 people served had a substance use disorder as part of their diagnosis, as well as co-occurring mental health disorders and significant trauma histories. This proposal aims to serve that population by steadily increasing the number of adults and some pregnant women over the five year grant period who are connected to OUD treatment, counseling and mental health services, peer support, housing, education, childcare, employment and job training. Additionally, over the five year grant period Region Ten will gradually increase the number of people who are engaged in harm prevention outreach efforts such as Naloxone and fentanyl test kits distribution, as well as clean syringe exchanges. All of these efforts will be likely to increase the number of overdoses that are reversed.

Region Ten has a long history of providing recovery-based and trauma-informed care, which is crucial since research from the National Institutes of Health* shows that individuals with opioid use disorders (OUD) have a significantly greater incidence of exposure to traumatic events and developing Post-Traumatic Stress Disorder (PTSD). This study also found very high rates of trauma among individuals with OUD with a majority of participants reporting a history of childhood sexual, physical, or emotional abuse, physical neglect, or violent trauma. This research is consistent with Region Ten's organizational data that shows nearly 10 percent of individuals with SUD concerns have a primary or secondary diagnosis of PTSD. Additional information from the Children's Mental Health Network shows that trauma is often the "gateway drug" to addictions due to the fact that individuals with a high exposure to adversity in childhood (also known as a high ACE score) are 46 times more likely to be IV drug users compared to people who report no ACEs. For the last five years, Region Ten's prevention team has leveraged this research and offered regular trainings to the community, free of charge, related to trauma and Adverse Childhood Experiences (ACEs).

**Application for Awards for Cooperative
Projects Involving Cities and Counties**

g. Is the project classified as evidence-based?

Yes

No

If yes, attach supporting information to this application.

h. Is the project classified as evidence-informed?

Yes

No

If yes, attach supporting information to this application.

i. Has this project been certified or credentialed by a state/federal government agency, or other organization/non-profit?

Yes

No

If yes, attach supporting information to this application.

j. Has this project received any awards or recognition?

Yes

No

If yes, attach supporting information to this application.

k. Does this project have components other than opioid-related treatment as defined?

No, it is 100% related to opioid treatment

Yes, there are other substances involved

If yes, what is the approximate percentage of the project that covers opioid-related abatement (i.e., 20% of the patients who seek services have opioid-related disorders)?

In the last year, approximately 11 percent of individuals served by Region Ten had a primary diagnosis of OUD, which is a slight decline from previous years. This difference may be attributed to the rise in amphetamine, methamphetamine, and cocaine use across all six of our localities served. Of the 11 percent who had a primary diagnosis of OUD, Alcohol Use Disorder (AUD) and PTSD were secondary and tertiary diagnoses. Alcohol has consistently been the preferred drug of choice with 20-25 percent of people served identifying AUD as their primary diagnosis in the last 3 years. While the 11 percent of people with an OUD diagnosis will receive connections to OUD care and treatment through this project proposal, the remaining 89% of people served will receive OUD prevention and education to help abate the opioid epidemic.

**Application for Awards for Cooperative
Projects Involving Cities and Counties**

- l. Attach a budget for that minimally includes FY2024 with line-item details for the project. If carry-over of OAA funds from FY2024 into FY2025 is expected, include this in the line-item budget. If there is intention to renew the funding (maximum of 4 renewals), include the projected budget for each subsequent fiscal year.
 - i. If a city or county in the cooperative partnership is allocating any of its Direct Distributions and/or any of its Individual Distributions from the OAA to this cooperative project, include line items for each as funding sources for the project.
- m. Complete and attach the project timeline workbook for the project minimally for FY2024. If there is intention to renew the funding (maximum of 4 renewals), complete the timeline for each subsequent fiscal year.
- n. Complete and attach the performance measurement workbook for the project minimally for FY2024. If there is intention to renew the funding (maximum of 4 renewals), include the complete the performance measures for each subsequent fiscal year.
- o. *(Optional)* Attach any additional narrative materials explaining the project, along with any research, data, plans, letters of support, articles, or other items that may assist the OAA Board of Directors in making an award decision for this project.

Virginia Opioid Abatement Authority Cooperative Agreement

WHEREAS, the mission of the Virginia Opioid Abatement Authority (OAA) is to abate and remediate the opioid epidemic in the Commonwealth through financial support in the form of grants, donations, or other assistance; and

WHEREAS, the OAA operates a financial assistance program to support certain cooperative partnerships of cities and/or counties in Virginia that implement regional efforts to treat, prevent, and reduce opioid use disorder and the misuse of opioids; and

WHEREAS, the cities and/or counties listed below have committed to work together to develop and jointly submit an application for regional cooperative partnership funding from the OAA; and

WHEREAS, at least two of the cities and/or counties listed below are located within the same region of the Department of Behavioral Health and Developmental Services; and

WHEREAS, the cities and/or counties and other organizations listed below agree they will execute a legally binding agreement formalizing the cooperating partnership if the application for financial assistance is approved; and

WHEREAS, the cities and/or counties and other organizations listed below agree that Albemarle County will serve as the fiscal agent for the cooperative partnership if it is awarded; and

WHEREAS, the cities and/or counties and other organizations listed below seek a total of **\$1,711,325** in grant funding from the OAA for Fiscal Year 2024.

NOW, THEREFORE, BE IT RESOLVED, the cities and/or counties and other organizations listed below hereby authorize Albemarle County to execute all documents in connection therewith.

BOARD OF SUPERVISORS
 County of Fluvanna
 Palmyra, Virginia
RESOLUTION No. 15-2023

**A RESOLUTION IN SUPPORT OF A GRANT APPLICATION TO THE
 OPIOID ABATEMENT AUTHORITY TO FUND
 OPIOID ABATEMENT PROGRAMMING**

WHEREAS, the Commonwealth of Virginia established in 2021 the Opioid Abatement Authority (OAA) to allocate and use proceeds from opioid-related settlements in the form of grants; and

WHEREAS, the mission of the Virginia Opioid Abatement Authority (OAA) is to abate and remediate the opioid epidemic in the Commonwealth through financial support in the form of grants, donations, or other assistance; and

WHEREAS, in November 2021 the County of Fluvanna signed a Memorandum of Understanding with the OAA in order to be included in allocations from the opioid-related settlements; and

WHEREAS, the OAA operates a financial assistance program to support certain cooperative partnerships of cities and/or counties in Virginia that implement regional efforts to treat, prevent, and reduce opioid use disorder and the misuse of opioids; and

WHEREAS, the Region Ten Community Services Board serves residents in the counties of Fluvanna, Albemarle, Greene, Louisa, and Nelson, and the City of Charlottesville; and

WHEREAS, the localities served by the Region Ten Community Services Board have committed to working together to develop and jointly submit an application for regional cooperative partnership funding from the OAA; and

WHEREAS, the Region Ten Community Services Board has drafted a proposal and seeks a total of \$1,711,325 in grant funding;

WHEREAS, the OAA will accept applications for fiscal year 2024 proposals until May 5, 2023; and

NOW, THEREFORE, BE IT RESOLVED that the Fluvanna County Board of Supervisors does hereby lend its support of an application to the Virginia Opioid Abatement Authority in order to create and expand programming for the abatement of opioid substance abuse.

THE FOREGOING RESOLUTION WAS DULY AND REGULARLY ADOPTED by the Fluvanna County Board of Supervisors of Fluvanna County on this 3rd day of May 2023.
